

Marvelous Maintenance Technician

Hotel Zed Victoria is currently looking for a Marvelous Maintenance Technician to join our dynamic, totally unique, and rebellious team.

Why Us

Working at Hotel Zed is different than working anywhere else, and that is a really good thing. Being a family owned business, we treat our staff like one of our own... (except without the inheritance). So, if you enjoy having fun at work (and doing a great job at the same time!), bring a healthy dose of humour to your job (we draw the line at super soaker spray guns!) and have a can-do, flexible attitude (if you like rigid rules and policies – go work in a bank!) come join the Hotel Zed family!

At Hotel Zed we care about our staff. We are a family run business and we care about you like you're family. Sure, a lot of places say they care about their staff... Here's how we show it:

- Two scholarship programs; one for you and one for your family
- Two free room nights a year at any of our properties
- Treat days and monthly & yearly bonus
- Benefit Plan, including Extended Health, Dental and more after 6 months
- Employee Family Assistance Program
- Peer Recognition Program

What You Do

As part of our Marvelous Maintenance team, you know that cleanliness and comfort are the most important things we can offer our guests. You go above and beyond to ensure our guest rooms and common areas are always spotlessly clean, well lit, secure and usable, and looking totally awesome for our guests.

You are a handy, skilled person who loves fixing things big and small. You ensure that all facilities and fixtures are working properly to delight our guests. This includes the buildings grounds and gardens, flower baskets, lighting, plumbing, electrics, machines, fixtures, wallcoverings, carpet and furniture. You know your way around tools and equipment and feel confident fixing and tweaking as needed. You maintain the property and public areas to a high standard of safety, taking care of planned and unplanned maintenance. You have an eagle-eye for detail and take pride in the property's appearance and operations. You have excellent communication skills and share frequently with the housekeeping and front desk departments. You are quick to help out our guests who may have a flat tire or a flat battery or may have locked their keys in their car.

Marvelous Maintenance Technician

What You Need

- Fun loving nature
- Good mechanical sense and how things work
- A whiz with tools
- An eagle eye for detail
- An obsession for neatness and cleanliness
- A sense of urgency and able to work happily on your own
- A love for a range of duties and staying active
- Able bodied and capable of lifting, carrying and pushing heavy loads
- Driver's License
- Know your way around plumbing, electrical, mechanical, carpentry, and painting
